Fluidquip Australia Pty Ltd

Environmental Policy

Our Organisation is committed to undertaking its activities in an environmentally responsible manner and effectively managing any risk that may impact the environment. Our organisation will manage its work activities in a manner that is consistent with the principles of ecologically sustainable development and will deliver continuous improvement in environmental performance.

Our organisation will take all steps necessary to ensure that its activities do not compromise this commitment.

This Environment Policy Statement receives the highest priority from the senior managers of the organization and this priority is communicated to all personnel connected with the company.

Managers and Work supervisors are responsible, within their work areas to implement this policy; they must proactively address issues that may affect environmental performance at project worksites for which our Organisation is responsible.

All staff have a responsibility to actively contribute towards avoiding or minimising environmental impacts in their day-to-day activities. Employees must monitor the continued effective installation and operation of environmental controls within the scope of their day-to-day work.

All incidents, however minor, are reported to management so that appropriate action can be undertaken to prevent a repetition or to minimize the risk.
Our organisation will reduce and recycle waste materials where possible and dispose of other waste material in a responsible manner.

All employees and contractors attend appropriate training courses for the type of work that they undertake so that they may complete their tasks in a competent and safe manner.
Our organisation undertakes to consult its employees, contractors and the client on safety and environmental matters especially where any workplace change of practice may impact the environment or their obligations.
